12/88

Distilled Spirits Council of the United States, Inc.

November 7, 1988

FROM: Office of Strategic and Policy Analysis

The Annual Statistical Review ceased formal publication with the 1984/85 issue. Attached for your use are selected 1987 tables produced in-house for limited distribution. We welcome your comments and questions.

STATISTICAL TABLES

Apparent Consumption of Liquor in the United States, License and Control States, 1934-1987

Apparent Consumption of Liquor, by State, Total and Per Capita, 1986 and 1987

Apparent Consumption of Liquor in the United States by Month, 1986 and 1987

U.S. Apparent Consumption of Liquor, by State, 1977-1987.

Apparent Consumption of Liquor, Beer and Wine, by State, Total and Per Capita, 1987

Apparent Consumption of Alcohol from Liquor, Beer and Wine, by State, Total and Per Capita, 1987

Estimated Liquor Entering United States Trade Channels, Including Bottled Exports, by Class and Type, 1977-1987.

United States Dutiable Imports of Liquor for Consumption, by Class, 1934-1987

United States Commercial Exports of Liquor, by Class, 1975-1987

Sales of Distilled Spirits: Retail Sales in Control States, Supplier Shipments in License States, by Class and Type, 1987

1250 I STREET, N.W., SUITE 900 WASHINGTON, D.C. 20005 (202) 628-3544

NOTE: Because of rounding, detail may not add to total. Excludes Hawaii, 1934-64.

a\ Apparent consumption does not represent actual ingestion by consumers. Stock changes at the wholesale, retail, and consumer level as well as the lag between the time of wholesale tax payments or retail sales and actual drinking by consumers may affect the level of actual intake in a given year.
b\ Includes District of Columbia.
c\ Includes Mississippi gallonage from July through December 1966.
d\ For 1985 - 1987 new methods were used to compute apparent consumption for 12 License states.

SOURCES: Distilled Spirits Council of the United States, Inc.; Bureau of Census, U.S. Department of Commerce.

Where available, license state consumption based on tax gallonage reported by state tax authorities. In other states, estimated from state tax collection by dividing revenues collected by tax rate per gallon. In Georgia, Hawaii, Missouri, South Carolina, South Dakota and Wisconsin, consumption represents shipments from distillers to wholesalers. Hawaiian estimates through 1983 are based on semiannual tax data.

Control state consumption is package sales in retail stores and case sales to on-premise licensees as reported to NABCA, except in Mississippi, Wyoming and, beginning in March 1987, Iowa where statistics represent wholesale sales by state liquor control boards to private retailers.

" New methods were used to compute apparent consumption for these 12 License States in 1986 and 1987. 1986 figures for these 12 states have been revised.

a\ License States: Where available, license state consumption is based on taxed gallonage reported by state authorities. In other states, estimated from state tax collections by dividing revenues collected by the state tax rate per gallon.
* In Georgia, Hawaii, Missouri, South Carolina, South Dakota, and Wisconsin, consumption represent shipments by distillers to wholesalers.

b\ Control States: All control state data, with three exceptions, are package sales in retail stores and case sales to on-premise licensees.
** In Mississippi, Wyoming and, beginning in March 1987, Iowa the data represent wholesale sales from state-controlled warehouses to private retail establishments.

NOTE: Because of rounding, detail may not add to total.

a\License States: Where available, license state consumption is based on taxed gallonage reported by state authorities. In other states, consumption is estimated from state tax collections. Beginning with 1985, new sources are used for Arizona and New Mexico. Also beginning in 1985, Florida special liquor products are added into the Florida data. Finally, beginning with 1985, the monthly data for Indiana, Tennessee and Texas are shifted to more closely reflect consumer purchases.

* For Georgia, Hawaii, Missouri, South Carolina, South Dakota and (after 1984) Wisconsin, consumption represents shipments by distillers to wholesalers. Beginning with 1985, the monthly data for these states are shifted to more closely reflect consumer purchases.

b\Control States: All control state data, with three exceptions, are package sales in retail stores and case sales to on-premise licensees.

** In Mississippi, Wyoming and (beginning in March 1987) Iowa consumption represents wholesale sales from state-controlled warehouses to private retail establishments.

NOTE: Because of rounding, detail may not add to total. Includes some conversion from proof gallons to wine gallons.

SOURCES: Bureau of Alcohol, Tobacco and Firearms, U.S. Treasury Department; Bureau of Census, U.S. Commerce Department; Virgin Islands Rum Council; Puerto Rico Rum Producers Association.

FOOTNOTES:

a\ Revised.

b\ May include product to which 160 proof and over whiskey has been added as part of contents but does not enter trade channels at 160 proof.

c\ Includes whiskey from Northern Ireland.

d\ Through 1985 the source for data on Puerto Rican rum (bottled in Puerto Rico) was the Puerto Rico Rum Producers Association. Beginning with 1986, the source changed to the U.S. Census Bureau. The source for Puerto Rican rum bottled in the U.S., the Bureau of Alcohol, Tobacco & Firearms, is the same for all years.

NA - Data for 1980 are not strictly speaking comparable with 1981 and earlier year data because of reporting and definitional difficulties in the first nine months of 1980 that resulted from the change to the all-in-bond system by the U.S. Bureau of Alcohol, Tobacco & Firearms. Also for these reasons, a breakdown between domestic and imported non-whiskey liquor for 1980 is not reliable and therefore is not given.

NOTE: Because of rounding, detail may not add to total.

a - Data for the years 1934 through 1978 are in tax gallons; data for 1979 and on are in proof gallons.

b - Indicates shipments in wood or metal containers each holding more than one gallon.

c - Vodka included in "Other" before 1980.

d - Tequila included in "Other" before 1974.

e - Bitters included in "Other" before 1979.

f - Substantial quantities of imported bulk rum were shifted from Customs bonded warehouses to BATF bonded warehouses in 1984 (about 5 million gallons from Jamaica). As a result, these supplies have been described as imports for immediate consumption although bottling and consumption may not take place for a year or more. The shift occurred because, with passage of the Caribbean Recovery Act in 1984, rum from Caribbean nations now enters the U.S. duty free. This makes storage in Customs bonded warehouses unnecessary to defer payment of import duties.
